- (e) *The estimated amount payable to the contractor under the contract*

Amounts are generally not payable to the Developer under the Development Management Agreement; however the Authority has obligations to pay for the cost of site remediation, providing road access and services to the site boundary. The Authority has entered into a Project Management Agreement with the Developer, for the Developer to project manage the Authority's external infrastructure works.

Under the Agreements for Ground Leases, the Developer is to pay an Upfront Land Payment to the Authority. Under the Ground Leases, the Tenant is to pay an Annual Rent to the Authority for the term of the Lease.

As described in paragraph (e) above, amounts are generally not payable to the Developer. The project management may vary with the cost of the external infrastructure works costs.

The Developer was short-listed as a result of that process and subsequently became the Successful Proponent upon entering into the Development Management Agreement.

The Authority compared the rental offer for the Retail Centre Land to the commercial market rents received by the Authority on other comparable projects and sites as part of the tender assessment process referred to in paragraph 3(h) above.

The Authority determined that a tender by way of Expression of Interest and Request for Proposals would deliver superior value for money over other delivery models.

The Development Management Agreement allocates substantial risk during the construction and operational phases of the project to the Developer and Tenant. The Developer has obligations to procure approvals, and then proceed with the construction, and once the project is complete, the Tenants accept the allocation to it of a range of operational risks.

- (g) *Particulars as to any significant guarantees or undertakings between the parties, including any guarantees or undertakings with respect to loan agreements entered into or proposed to be entered into*

The Developer is required to provide an upfront development fee and upfront land payments, funding commitments and construction bank guarantee by way of security for its compliance with its obligations under the Agreements for Lease. The construction bank guarantee is to be provided before commencing works. A guarantor will guarantee the obligations of the Developer.
